

JM Richardson Business Transfer

Guarantee

We guarantee to introduce your business to Buyers in our proprietary database the Private Connection© within the first 30 days of our assignment.

We guarantee you will be 100% satisfied with the marketing materials we prepare for your campaign. If you are not completely satisfied with our materials, we will, at your option, either waive the materials fee, or accept a portion of those fees that reflects your level of satisfaction. That means no questions asked and no hard feelings on our part.

It is unethical for us to accept fees based on the valuation and pricing recommendations we make. Therefore, we guarantee that if you are not satisfied with the valuation and pricing recommendations we make, and you decide to have us market your company within the next two years, we will update your valuation at no cost to you.

Your business interests are our highest responsibility. We promise and guarantee we will never accept compensation from anyone in connection with your transaction without your knowledge and approval. If we do, we will forfeit the fee you owe us.

And finally, we believe our payday should be the same as yours. Our success fee is based on results and we don't get paid until you do - at closing.
